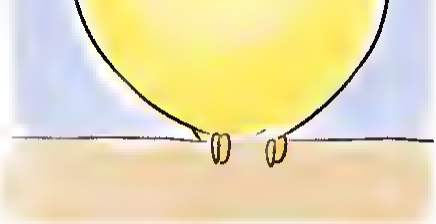
# EP. 34
# DARK EYED CLAN

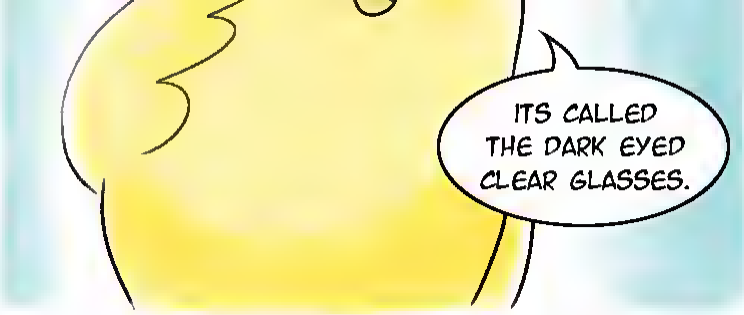
MEET OUR THIRD BIRD.



YES...HE IS A MALE.

HE IS A YELLOW BASED, **DARK-EYED** CLAN...ER...**CLEAR** BUDGIE WITH GREEN TINT.

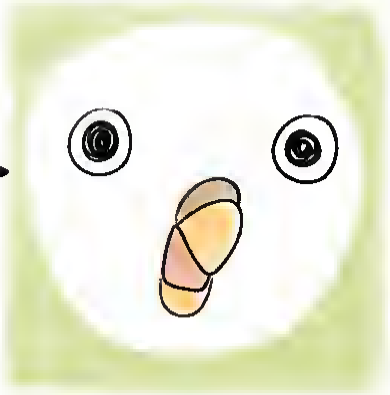
THEIR EYES ARE LIKE SUNGLASSES.



BUDGIES WILL START DEVELOPING WHITE *IRIS RINGS IN THEIR EYES WHEN THEY REACH MATURITY.

A BABY BUDGIE
EYES.

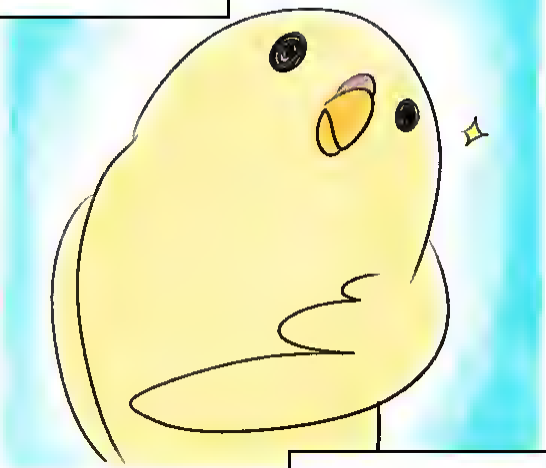
ADULT
EYES.



YET, CASES LIKE THE DARK-EYED CLAN

-ER CLEAR...

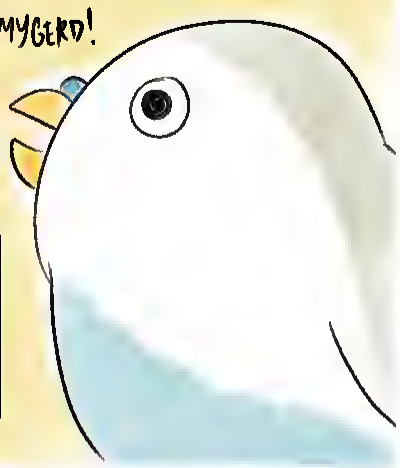
THEIR EYES WILL REMAIN THE SAME THROUGH-OUT ADULTHOOD.



DARK EYED CLEARS WILL HAVE **SOLID** BLACK EYES WITH NO **IRIS RINGS.**

TONYS EYES WILL *DILATE

ONLY WHEN HE GETS EXCITED.



BUT, MOST OF THE TIME HIS EYES REMAIN DARK EYED.

ANYWAYS...

HOW WAS I ABLE TO TELL IF THE NEW BIRD WAS A MALE?
...
WELL... FUFUFU

OF COURSE, BECAUSE OF HIS...

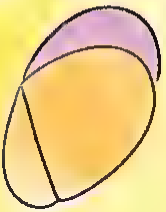
GLOWING BIG EYES!!

OBVIOUSLY...

ITS BECAUSE OF HIS CERES.

BUT ITS...PIN-

PURPLE!!

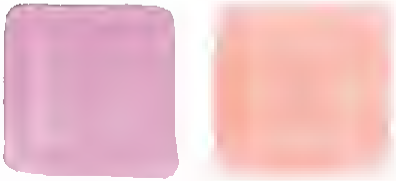


DARK EYED CLEAR MALE BUDGIES WILL HAVE PURPLISH/PINK CERES.

KIND OF

PURPLE

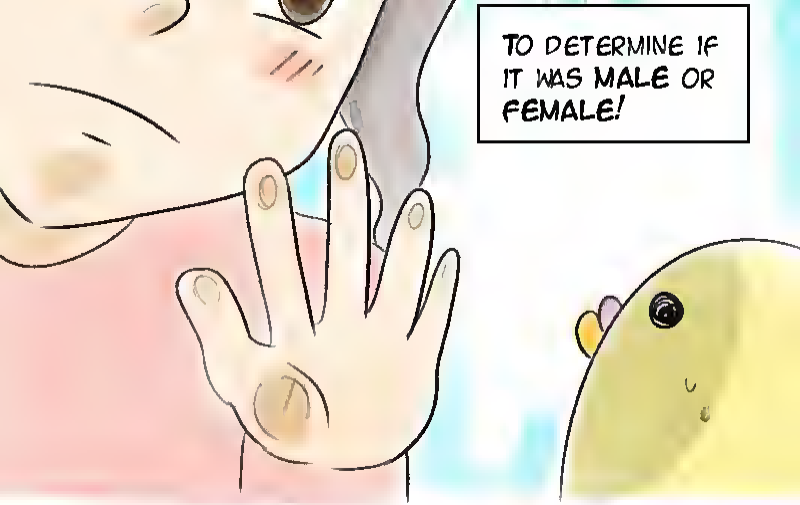
PINK



MY POOR CHOICE OF COLORS...

BUT OF COURSE! KNOWING THE **GENDER** CAN BE CONFUSING AT FIRST.

SO THE FIRST TIME I SAW HIM,
I LOOKED
REEAALLL HARD.



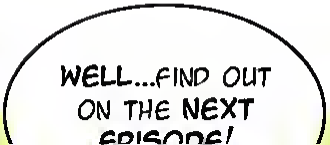
THIS TIME, IT WASNT SO HARD..

THAT BUDGIE IS A-
MALE!
I GOT THIS!
BIRDMAN
ER... CORRECT...

YEARS, UM, WEEKS OF RESEARCH ON BUDGIES **GENDER** HAS MADE ME FEEL **CONFIDENT!**

**SO...**

AS FOR HIS **NAME?**



HAHA...
SEE YA DUDES...

• • •

BANANA, CORN,
BUTTER, YOLK, LEM
OMELET, MACARONI, SU
LEO, STAR,
GOLD, KIN
CROWN,
CHEESE,
DANDELION,
MUSTARD,
TWINKIES,
SUNFLOWER
TELL ME
ALL THE
YELLOW
NAMES!
WHY MUST IT ALWAYS BE RELATED TO THE COLOR OF THE BUDGIE?

*IRIS RING: A WHITE RING AROUND THEIR BLACK PUPIL APPEARS WHEN BUDGIES MATURE. IT CAN SOMETIMES DETERMINE THE AGE AS WELL.

EXCEPTIONS OF COURSE IN, LUTINO/ALBINO/DARK EYED CLANS/ AND RECESSIVE PIEDS.

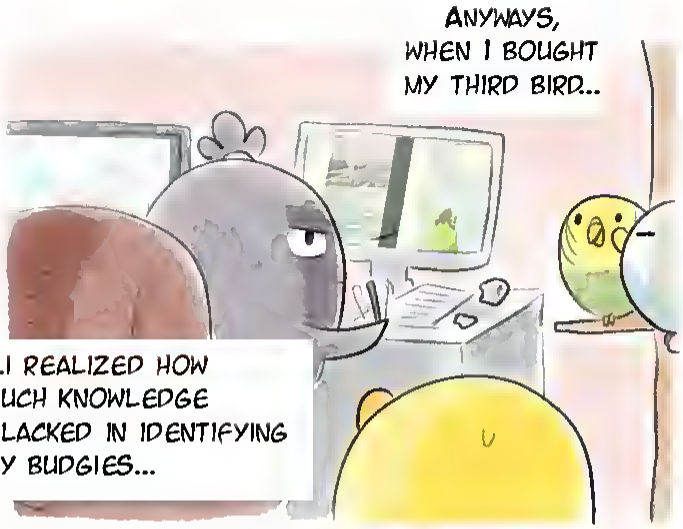
*DILATE: A BUDGIES EYE WILL DILATE/SHRINK DEPENDING ON THEIR EMOTIONS. NORMALLY IT HAPPENS WHEN THEY ARE EXCITED, MAD, OR...FLIRTING.

# A BUDGIES LIFE

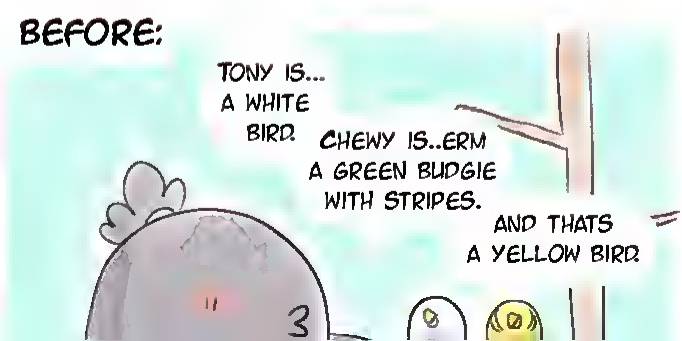
THE TALES OF AN ARTISTS PET

BY
MUFFIN GIRL

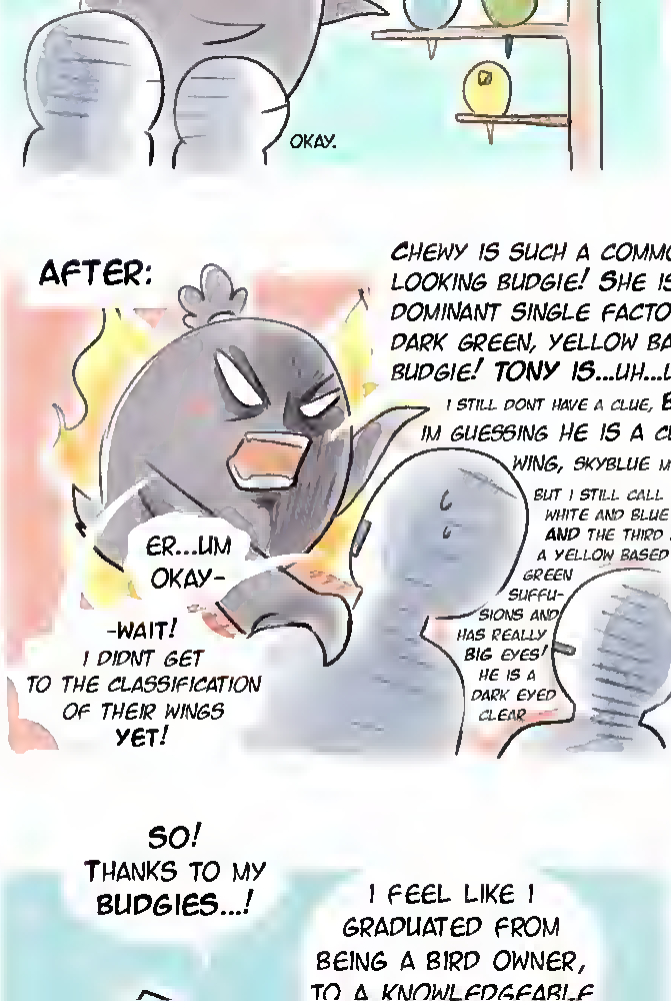
EXTRA



ANYWAYS,
WHEN I BOUGHT
MY THIRD BIRD...
...I REALIZED HOW
MUCH KNOWLEDGE
I LACKED IN IDENTIFYING
MY BUDGIES...



BEFORE:
TONY IS...
A WHITE
BIRD
CHEWY IS..ERM
A GREEN BUDGIE
WITH STRIPES.
AND THATS
A YELLOW BIRD

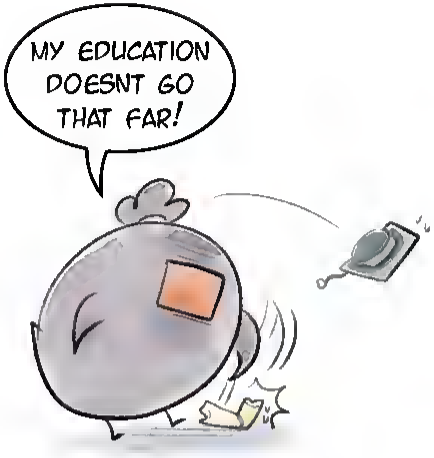


OKAY.
AFTER:
ER...UM OKAY-
-WAIT! I DIDNT GET TO THE CLASSIFICATION OF THEIR WINGS YET!
CHEWY IS SUCH A COMMON LOOKING BUDGIE! SHE IS A DOMINANT SINGLE FACTOR DARK GREEN, YELLOW BASED BUDGIE! TONY IS...UH...UM...
I STILL DONT HAVE A CLUE, BUT IM GUESSING HE IS A CLEAR-WING, SKYBLUE MUTATION
BUT I STILL CALL HIM THE WHITE AND BLUE BIRD AND THE THIRD BIRD IS A YELLOW BASED WITH GREEN SUFFU-SIONS AND HAS REALLY BIG EYES! HE IS A DARK EYED CLEAR
SO! THANKS TO MY BUDGIES...!
I FEEL LIKE I GRADUATED FROM BEING A BIRD OWNER, TO A KNOWLEDGEABLE

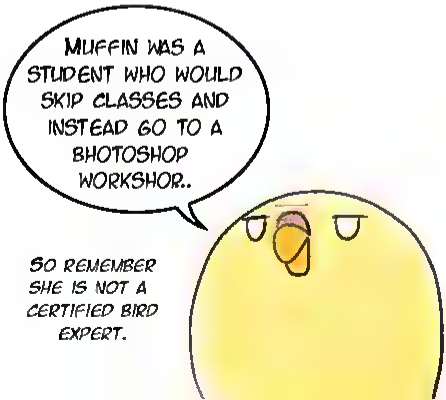
BIRD OWNER...

WHAT ABOUT CONURES? MACAWS? FINCHES?

...



MY EDUCATION DOESNT GO THAT FAR!



MUFFIN WAS A STUDENT WHO WOULD SKIP CLASSES AND INSTEAD GO TO A BHOTOSHOP WORKSHOR..
SO REMEMBER SHE IS NOT A CERTIFIED BIRD EXPERT.
